Manufacturer of wireless access products to support the Global Standard for Mobile	AITLINK Communications				
	AIRLINX Communications, Inc.	Supplier of spread spectrum & microwa	ave radio communica	ations equipment	
		Manufacturer of wireless access produ Communications (GSM) system	cts to support the GI	obal Standard for Mobile	

AirNet Communications	Manufacturer of wireless access products to support the Global Standard for Mobile Communications (GSM) system
Aironet / Cisco System's Wireless	Manufacturer of wireless access products
Airslide	Provides 3G IP -based convergence solutions for cellular network backbones
Airspan Networks	Manufacturer of CDMA based wireless access solutions
Alantro Communications / now part of Texas Instruments	wireless local area network (WLAN) chipsets - IEEE 802.11-compliant
Alcatel	Manufactures a complete range of antennas and transmission lines for all areas of radio communications
AlterEgo Networks	Mobile Web Server - server-based software platform for securely deploying enterprise applications & web content to any type of wireless or wired device
Ameranth Technology Systems	WAP wireless system solutions for the hospitality & security markets
American Microsystems, Inc.	WavePlex™ Wireless Products family of highly programmable CMOS based IC transceivers, receivers & transmitters
American Tower Corp	wireless communications and broadcast infrastructure company
AML Communications, Inc	manufactures single / multicarrier, RF and microwave, power & low noise amplifiers for a variety of frequency ranges and transmission protocols
Amplidyne, Inc	Wireless communications equipment
Anaren Microwave, Inc	provider of integrated microwave components, assemblies and subsystems for wireless communications & satellite communications
Andrew Corporation	antenna manufacturer for wireless data communication: Wideband Antennas for 3G Single and Multiband System
ANTEC Corporation	manufacturer of optical and radio frequency (RF) transmission equipment for the construction, rebuilding and maintenance of broadband communications systems
Antel International Inc	Manufacturer of high quality base station antennas
Antennas America Inc	Manufacturer of state of the art antennas
Antenna Products, Inc.	manufacturer of standard and custom antennas, guyed and self-supported towers, monopoles, support structures, masts & communication accessories
APA Wireless Technologies	new RF component enables wireless providers to pack greater amounts of data into existing frequencies at lower cost
Aperto Networks	develops fixed broadband wireless access systems
Apple	Direct Sequence Spread Spectrum (DSSS) wireless access systems
Arcadian Wireless, Inc	Proprietary wireless communications technology
ARC Wireless Solutions, Inc.	Manufacturer of a broad range of component & network solutions in support of wireless applications
ArrayComm, Inc.	Manufacturer of smart antennas - San Jose, California
ARtem	manufactures wireless broadband equipment - company is the result of a management buy -out from the former DaimlerBenz Aerospace AG
Askey Computer Corporation	manufactures broadband wireless LAN equipment
AstroTerra Corporation	Manufactures a full line of wireless optical communication systems
Atreus System Corporation	xLINK [™] Broadband Service Creation Product Suite delivers & manages high-value broadband applications and services for hotels, Multi-Tenant Units (MTU), Multi -Dwelling Units (MDU) and small-to -medium sized businesses
Atheros Communications, Inc	manufactures Next Generation wireless LAN Chipsets & Software
Atmel Corporation	manufactures advanced semiconductors, including advanced logic, nonvolatile memory, mixed signal and RF integrated circuits
@Road, Inc	WAP besed scalable data center, secure wide area network infrastructure, patented LocationSmart™ technology
A.T.Schindler Communications Inc.	Manufactures wireless data communications products
Axesstel	developer of wireless local loop (WLL) handsets & modem card products for the global code division multiple access (CDMA) communications market
Ball Corp.	Manufacturer of standard & custom antennas
BeamReach Networks	developer of MMDS WCS and 3.5 GHz fixed -broadband-wireless technology
BELSTAR Systems Corp.	Manufacturer of wireless access products
Bosch SatCom	full-line supplier of telecommunications systems & quipment for satellites
BreezeCom (our equipment vendor)	Spread spectrum & microwave Wireless Networking Equipment
BridgeWave Communications	supplier of subsystem technology for implementing low-cost, high-performance millimeter wave (MMW) subscriber terminals & other high-frequency wireless devices
BroadBand Wireless Inc.	Broadband Wireless Local Multi-Point Distribution Solutions
	Manufactures components for broadband satellite communications networks
BroadTel Wireless	supplier of broadband wireless solutions for the next generation IP-based networks

Wireless Equipment / Software Manufacturers & Vendors

Buffalo Technology	wireless PC network cards & access points
Cable AML	supplier of point-to-multipoint fixed-wireless systems available at frequencies from 2 to 42 GHz
Cabletron Systems	Manufacturer of wireless access products
CacheFlow Inc.	designs, develops & markets Internet caching appliances that are purpose-built to accelerate and optimize the flow of information over the Internet
California Amplifier	Provider of integrated microwave fixed point solutions
Cambridge Broadband	a range of innovative broadband wireless systems known as VectaStar
Canoga Perkins Corporation	manufactures LAN/WAN Internetworking, fiber optic modems and multiplexers (WDM and TDM),Videoconferencing products
CEL - NEC RF, Microwave & Optoelectronic Semiconducters	provides complete RF receiver/transmission solutions
Cayman Systems, Inc.	Manufactures wireless data communications products for Macintosh computers
C-COM Satellite Systems Inc.	satellite-based technology that allows the delivery of high-speed Internet services to mobile users
C-COR.net Corporation	products includes RF (radio frequency) amplifiers & fiber optic equipment for the network headend, node and RF plant
Celeritek, Inc.	manufactures gallium arsenide (GaAs) semiconductor components & subsystems used in the transmission of voice, video and data over wireless communication networks
<u>Cell-Loc Inc</u>	provider of wireless location products that enable location-based services
Centerpoint Broadband Technologies, Inc.	Manufactures wireless systems that maximize valuable wireless spectrum & more cost-effectively deliver fixed-broadband-wireless services over the last mile
Ceragon Networks Ltd	Manufactures FibeAir high -capacity fixed-broadband -wireless-access systems
Certicom Corporation	encryption technology company specializing in security solutions for mobile computing and wireless data markets
CES Wireless Technologies	Manufacturer and implementation of Wireless Signalling products
Channell Commercial Corporation.	enclosure products house, protect and provide access to advanced telecommunications hardware, including both RF electronics, photonics & transmission media
Cirronet Inc (formerly Digital Wireless Corporation)	supplier of OEM Spread Spectrum wireless data transceivers - WaveBolt fixed-wireless-access system operates in the unlicensed 2.4 GHz band
Cisco Wireless	fixed wireless communications equipment including RF microwave radios, programmable switching platforms & wireless access router solutions
Clarinet Systems	high-speed wireless LAN connectivity for virtually all handheld devices independent of their platform and OS, through a single access point
Clarion Corporation of America	high speed wireless network communications equipment
Clearwire Technologies, Inc	fixed wireless communications equipment
COM DEV Wireless Group	Manufacturer of wireless communications infrastructure subsystems
<u>Compaq</u>	wireless LAN equipment
Compaq Computer Corp	wireless iPAQ solutions powered by Infowave's Wireless Business Engine(TM)
Comtech Telecommunications	telecommunications transmission, RF microwave amplifiers & mobile data communication services
Conductus Inc	manufacturer of high -performance superconducting wireless systems
Conexant	provides semiconductor solutions for communications electronics - including wireless broadband communications networks
Copper Mountain Networks.	CopperWireless ensures seamless, end-to-end interoperability between rooftop wireless backhaul equipment & routers and voice gateways at MTU DSL service providers' regional centers
Corsair Communications	provider of real-time business solutions for the global wireless industry
CoWave Networks	Manufacturer of next generation broadband wireless access equipment
Crosspan	broadband wireless access (BWA) products & technologies
C-SPEC Corporation	OverLAN® broadband wireless network products & technologies
cStar Technologies	Products include wireless data communication, wireless network access, telemetry & multi - protocol gateways
Cypress Semiconductor Corporation	software, hardware, analog & manufacturing process expertise to create integrated solutions for multiple segments of the wireless business
Data Critical Corp	manufactures, markets, installs & supports wireless communication & information systems for health care industry
DATA-LINC	wireless communications equipment
Dataradio	open -architecture family of products for private wireless mobile data networks
Datron Systems Inc.	provider of products and services for emerging satellite & radio communication markets
Dell	TrueMobile wireless LAN Wireless solutions from Dell
Diva Communications, Inc.	Manufactures, markets & supports wireless access equipment based on PDC (Personal Digital Cellular)
D-Link	Manufacturer of D-Link Air Series of Wireless Networking Products based on the IEEE 802.11b standards

Wireless Equipment / Software Manufacturers & Vendors

DragonWava Inc	supplier of high performance Next Constation Intelligent millimetre wave radios
DragonWave Inc.	supplier of high performance Next Generation Intelligent millimetre wave radios manufactures microwave communications equipment for the LMDS, LMCS & MVDS industries &
Dudley Lab	other applications in the 25 to 31 GHz frequency range
	Manufacturer of high speed, multistandard -scanning receivers
Eagle Wireless International, Inc	wireless communications equipment
Eba Systems	Builds software to serve enterprise data to mobile wireless devices & a variety of other platforms manufacture microwave signaling devices / subsystems for the satellite communication & the
Elcom technologies Inc. (ETI)	emerging wireless communication markets
Electronic Retailing Systems International, Inc	provider of Electronic Shelf Label (ESL) systems - a powerful, 2.4GHz wireless retailing solution
Electronic Systems Technology. Inc	Manufactures wireless data communications products
Ellipsis Digital Systems	flexible software & hardware for wireless devices, digital cellular telephones, and fixed- broadband-wireless-access networks
Embedded Wireless Devices Inc	optimized total solutions in silicon for wireless, audio and internet applications
EMCEE Broadcast Products, Inc	Produces wireless cable industry systems
Emergin.	paging software & WAP wireless Internet solutions
EMS Technologies	Produces wireless antennas & microwave systems
EMTAC Technology Co.	Produces wireless / RF microwave LAN equipment
Endwave	supplier of RF subsystems for millimeterwave, broadband wireless access systems
Ensemble Communications Inc.	supplier of next-generation broadband wireless access (BWA) equipment
Enterasys Networks	RoamAbout Wireless LAN product family is based on the IEEE 802.11, 11 Mbps standard
Ericsson	Produces end-to-end WAP-based wireless solutions
EUMITCOM TECHNOLOGY INC.	Wireless LAN equipment based on the IEEE 802.11 standards
<u>Everypath</u>	Mobile Application Platform & Intelligent Rendering [™] process enable companies to maintain a single infrastructure regardless of the access method their end users choose
Extended Systems	provides mobile information management solutions that enable users to access, collect, synchronize & print information on demand
Farallon Communications, Inc.	manufactures microwave wireless networking equipment
FiberStreet	provider of next-generation communications infrastructure products, including fixed wireless technologies
<u>FieldCentrix</u>	provider of wireless, Internet -based software for the field service industry
Filtronic plc	designs & manufactures a broad range of customised RF, microwave and millimetre wave cellular & broadband components / subsystems
Finline Technology	offers a full range of Wireless Cable Signal Processing equipment
Flarion Technologies	spin off of Lucent Technologies - flash-OFDM(TM) 3G wireless technology
FlashPoint Technology	transmit digital images from wireless handsets to Web sites
Floware Wireless Systems Ltd	fixed -broadband-wireless-access systems (BWA)
FreeWave Technologies	wireless communications equipment
fSONA Communications Corp	maker of broadband, optical, wireless systems for high-speed communications
Gabriel Electronics Incorporated	microwave antennas & accessories for the point to point communications industry
Galleon Corporation	Manufacturer of Broadband Wireless Access (BWA) network products
GemTek Technology Co	manufactures wireless LAN OEM / ODM equipment based on the IEEE 802.11 standards
Geoworks Corporation	AirBoss(TM) client/server mobile data solutions & WAP Mobile ASP(TM) solution
Global Interactive Technologies	Developers of voice and mobile computing solutions
Goal Industries	Makers of wireless data retrieval system for the gaming/arcade/vending industries
GRE America	wireless communications equipment
GTRAN, Inc	develops wireless & optical transmission products that enable high-speed data transfer
<u>GWcom</u>	mobile wireless applications services provider - byair.com™ - & wireless infrastructure - the PLANET™ system
Harmonic, Inc	manufactures digital & fiber optic systems for delivering video, voice and data services over cable, satellite, telephone and wireless networks
Harmonix Corporation	manufacturer of millimeter wave communications systems & components - GigaLink family of 60GHz full duplex, digital radios provide up to 622 Mbps data transmission rate
Harris Corporation	supplies digital microwave radios for global telecommunications applications
Harrison Digicom's Telecom Group	Equipment provider & subcontractor for wireless data communications
HeliOss Communications. Inc.	high capacity fixed wireless wide area networking equipment
Hewlett-Packard	Wireless Application Protocol (WAP)-enabled Mobile E-services commerce platform
Home Wireless Networks, Inc.	AirWay wireless LAN equipment based on the IEEE 802.11 standards
Hughes Network Systems	VSAT & AIReach® family of wireless network products
Hybrid Networks, Inc.	broadband wireless equipment

HyperLink Technologies	manufactures a wide line of high perfomance products for wireless LANs
Hyundai Electronics Industries (HEI)	mobile telecom chips used in wireless communications devices static random access memory (SRAM) and flash memory
IAS Communications, Inc.	Manufacturer of low profile antenna technology for Bluetooth wireless applications - can be miniaturized as small as a postage stamp
IBM Mobile and Wireless Services	Wireless carrier services, mobile computing products, voice products, and networking applications
100	satellite wireless communications services
IER.	RF Spectrum Analyzers & testing equipment
Inficom, Inc	Infilink wireless broadband architecture
Information Resource Engineering, Inc.	provider of virtual private network (VPN) technology & solutions for secure business communications
Infowave Wireless Software	wireless communication technology for businesses seeking wireless access to email & internet applications
Infrared Communication Systems, Inc.	infrared voice & data transmission systems
Inktomi Corp	infrastructure software for mobile WAP wireless network operators
innoCOMM wireless	semiconductor company focusing on innovative wireless communication solutions - RF chipsets
InnoWave ECI Wireless Systems Ltd.	Manufacturer of fixed -wireless -access local loop equipment
Integrity Communications	Develops cost effective networking hardware and software for broadband wireless and wireline access networks
Intel	Intel's Wireless Local Area Network (WLAN) & WAN solutions based on the IEEE 802.11 standards
InterDigital	3G wireless technology embedded into future mobile phones, personal digital assistants, hand held devices, etc.
Intermec Technologies Corporation	wireless networking equipment
Intersil	Prism Wireless Local Area Network (WLAN) & WAN solutions based on the IEEE 802.11 standards
interWAVE Communications Inc	products deliver a comprehensive set of GSM based network systems
Intrinsyc	manufactures an extremely small form-factor Single Board Computer and OEM Internet appliance reference platform
Invensys Power Systems	provider of power systems - telecom-grade, 48V DC power directly to communications equipment such as wireless LANs - Intergy NES provides DC back up power, real-time monitoring and system control via the Ethernet
<u>Iospan Wireless, Inc.</u>	AirBurst™ Broadband Wireless Access solutions - formerly Gigabit Wireless
ioWave, Inc.	broadband wireless equipment
IronBridge Networks	Manufactures true carrier-class Internet infrastructure products that integrate terabit routing & optical networking technology
ISG Broadband Inc.	provides complete RF receiver/transmission solutions
iConverse	wireless application platform helps companies create, deploy, and maintain flexible wireless applications that enable mobile transactions
i-Titan Communications Networks, Inc	manufactures wireless connectivity products & mobile Internet appliances
ITS Electronics Inc.	manufacturer of Broadband Wireless Internet radios - other advanced microwave & millimeter wave communications subsystems & components
Jetstream	Produces JetPowered(TM) Voice over Broadband solution
JP Systems, Inc	network- & device-independent mobile technology that wirelessly enables Internet and Intranet applications
Kachina Communications / SWIFT Wireless	Broadband wireless equipment
Kb/TEL Telecomunicaciones S.A. de C.V.	manufacturer of an array of wireless solutions to the "last mile" challenge
L-3 Communications	Communication products include microwave components & network systems
Lance Industries	manufacturer of Wireless Cable antennas
LGC Wireless, Inc.	wireless network equipment for voice and Internet access
LightPointe Communications, Inc	manufacturer of free-space optical products (hybrid laser/microwave systems) that provide connections to metropolitan fiber networks
LightSurf	provider of digital media infrastructure optimized for existing cellular networks and for next- generation, 3G cellular networks
Linksys	Produces broadband wireless / RF microwave network equipment
LizardTech Inc.	provides innovative imaging that optimizes bandwidth and provides immediate access to high - resolution, multipurpose digital images and multimedia content to the emerging wireless internet
	builds, owns, operates and exclusively manages multiuse broadcast & wireless facilities

Lodestar Towers Inc.	nationwide
Loma Scientific International	manufacturer of MMDS Broadband Fixed Wireless Transmitters, Systems & Components
Loral Space & Communications	satellite communications company with substantial activities in satellite manufacturing & satellite- based communications services
LSA, Inc	Manufacturer of high -speed wireless laser communication systems
LSI Logic	Manufacturer of single -chip CDMA baseband processor & other chips for wireless devices
Lucent Technologies WaveLAN & WaveACCESS	ORINOCO wireless communications equipment
M2Verticom	application software developer for wireless handhelds currently offering enterprise solutions in the medical, legal & engineering market
Malibu Networks, Inc	developer of fixed -broadband-wireless-architecture products
Massana	an innovator of smart math in silicon for broadband digital communications, a fabless semiconductor company
MAXRAD Inc	manufacturer of wireless communications antennas
MDS International	Wireless Networking Equipment
Mercury Interactive Corporation	Web performance monitoring tools to measure the response times of network transactions & gauge server availability
Merrimac Industries, Inc.	provider of passive RF and microwave components for industry, government & science
Metawave Communications	provider of smart antenna systems to wireless network operators facing capacity constraints in the wireless communications industry
Metricom.	Markets wireless networking systems
Metric Systems Corporation	Manufactures wireless communication systems
MH2Technologies	provider of Internet -based, job -management tools for the construction industry & other industries - fully compatible with most PDA devices including RIM's products, which employ GoAmerica's national wireless Internet service
Micronetics Wireless, Inc	Manufactures RF microwave & noise suppression components
Micron Technology Inc	designs & manufactures SyncFlash chip, which replaces synchronous DRAMs for embedded nonvolatile memory applications for wireless handsets
Microtune, Inc	RF silicon & systems 'gateway' solutions for broadband communications - MicroTuner(TM) single-chip tuner -receiver
Microwave Filter Company, Inc	passive electronic filters for radio & microwave frequencies systems 5KHz to 50GHz
Microwave Power Devices	Produces power amplifiers & related subsystems for wireless communications
Millitech	Provides Millimeter Wave technology products to high tech companies
MIRAE Technology - NANOSPEED	SaramNcom's Wireless Local Area Network (WLAN) solutions based on the IEEE 802.11 standards
Mitec Telecom	Manufactures high-performing wireless networks used in voice and data/Internet communications
Mitsubishi Wireless Communications	Manufactures WAP wireless Internet enabled phones
MMCOMM Inc.	designs & manufactures microwave / millimeter -wave components, modules & subassemblies for digital wireless communications
MMRadiolink Limited	supplier of millimetre wave radio equipment
mm-Tech,Inc.	manufactures LMDS / LMCS wireless components, subsystems & systems
MobileQ, Inc	A mobile server software & WAP solutions provider
MobileStar Network Corp.	broadband wireless access solutions & service based on the IEEE 802.11 standards
MobileThink	integrating WAP-enabled mobilephones & handheld devices with Internet technology
Mobilian	analog & digital integrated circuits and host and embedded software for standards-based wireless data communications
Motorola, Inc.	Manufacturer of wireless access products
nBand Communications, Inc.	nFlex wireless communications processors are used by OEM's of wireless LANs; fixed- broadband-wireless-access systems; universal wireless gateways & cellular base stations
NDC Communications	Manufacturer of wireless networking products for home networking & SOHO networking
Nera ASA	provider of microwave radio & satellite communications equipment and systems
Netro Corporation	Broadband wireless network equipment
NetworkOSS	Customer care and billing, order management and provisioning & network monitoring are just a few of the applications included in the BusinessNow™ application suites
NextGen Communications Inc.	Wireless Networking Equipment
NextNet Wireless	manufactures Broadband Fixed Wireless Access Systems for MMDS service providers, telecommunications companies & system integrators
Nokia Broadband Systems	Wireless DSL Networking Equipment
Nokia RoofTop™ Wireless Routing - formerly Rooftop Communications	wireless broadband systems
Nortel Networks	3G (Third Generation) Wireless Networking Equipment

Wireless Equipment / Software Manufacturers & Vendors

nott ltd	Communication Towers, Antenna Systems & Static Electricity Dissipators
Novarra	innovator of Adaptive Content Delivery - bridges the gap between WAP internet services & wireless handheld devices
Novatel Wireless, Inc.	Wireless Networking Equipment
Novell, Inc.	Novell's Net Services Software Gives ISPs and ASPs a Secure, Manageable & High - Performance Net for eBusinesses
NoWires Needed	broadband wireless LAN solutions based on the IEEE 802.11 standards
Nupremis	real-time applications & shared outsource services though a global network of high -performance Internet Data Centers
Nurad Technologies, Inc	Manufacturer of Antennas, Radomes & Tuned Antenna/Radome Assemblies
Off Air Electronics	supplier of equipment to the Cable TV, MMDS (Wireless Cable), R/F Broadcast & PTT services
Openwave Systems Inc	the combination of Phone.com & Software.com - WAP software applications for delivering wireless Internet access to mobile phones, other wireless devices and handheld computers
Option International	supplier of GSM mobile data solutions
OTC Telecom, Inc.	Manufactures wireless data communications products
Oracle Corporation	complete global e-business solutions that extend from front office customer relationship management to back office operational applications & platform infrastructure
OverLAN	Wireless Networking Equipment
Pacific Wireless	a range of innovative broadband wireless systems known as VectaStar
PacketVideo Corp	multimedia software platform provides encoding, transmission & decoding services supporting all major digital wireless telephony standards & next-generation wireless networks
Paragon Networks International	manufacturer of broadband digital integrated access & optical metro internetworking platforms
Paratek Microwave, Inc.	manufactures and electronically tunable RF (ETRF™) components & electronically scanning antennas for the wireless telecommunications industry
Parthus Technologies	providers of complete platform -level Intellectual property (IP) solutions targeting the mobile Internet market
<u>P-Com</u>	supplier of fixed wireless access equipment & services
PCS Innovations	Company develops a variety of wireless technologies, tools & services
Phonex Broadband Corporation	Wireless Networking Equipment visual & audio collaboration solutions: employs videoconferencing, video streaming & data
PictureTel Corporation	collaboration technologies
Pinnacle Communications	Manufacturer of Wireless Networking Systems
PLL Dynamics	wireless technology communications: new type of phase lock loop especially for Cellular 3G and Bluetooth
Powerwave Technologies	Manufactures & markets advanced radio frequency (RF) power amplifiers
Proxim Paian Taklanik	wireless RF communications equipment
Psion Teklogix	design, manufacture & delivery of complete local area wireless RF solutions provider of software infrastructure for the mobile Internet: a comprehensive application suite, the
Pumatech, Inc	Mobile Application Platform (MAP), for the delivery of highly personalized content to any mobile device
Qualcomm	digital wireless communications products & services
Radiant Networks	"mesh" network technology for broadband fixed wireless networks operating in the 26 to 40 GHz spectrum range
RadioConnect Corporation	Manufacturer of Spread Spectrum wireless communications products
RadioLan	Manufacturer of wireless local area network (LAN) systems
RADVision	provideo core technology componente for building U 222 multimedia internetworking 8 ValD
	provides core technology components for building H.323 multimedia internetworking & VoIP solutions over IP, Intranet, Internet & other packet networks
RADWIN, Ltd	
RADWIN, Ltd Radyne Comstream, Inc.	solutions over IP, Intranet, Internet & other packet networks offers the Wireless Local Loop (WLL) market a point-to-multipoint system with W-CDMA and IP
,	solutions over IP, Intranet, Internet & other packet networks offers the Wireless Local Loop (WLL) market a point-to-multipoint system with W-CDMA and IP technologies manufactures equipment used in the ground-based portion of satellite communication systems to
Radyne Comstream, Inc. RangeStar Wireless Raytheon Wireless Solutions.	solutions over IP, Intranet, Internet & other packet networks offers the Wireless Local Loop (WLL) market a point-to-multipoint system with W-CDMA and IP technologies manufactures equipment used in the ground-based portion of satellite communication systems to receive & transmit data, video, audio and Internet over satellite communications links
Radyne Comstream, Inc. RangeStar Wireless Raytheon Wireless Solutions. Raze Technologies Inc	solutions over IP, Intranet, Internet & other packet networks offers the Wireless Local Loop (WLL) market a point-to-multipoint system with W-CDMA and IP technologies manufactures equipment used in the ground-based portion of satellite communication systems to receive & transmit data, video, audio and Internet over satellite communications links manufactures embedded antennas for the wireless communications markets Manufacturer of wireless access products manufactures a fixed wireless broadband system
Radyne Comstream, Inc. RangeStar Wireless Raytheon Wireless Solutions.	solutions over IP, Intranet, Internet & other packet networks offers the Wireless Local Loop (WLL) market a point-to-multipoint system with W-CDMA and IP technologies manufactures equipment used in the ground-based portion of satellite communication systems to receive & transmit data, video, audio and Internet over satellite communications links manufactures embedded antennas for the wireless communications markets Manufacturer of wireless access products manufactures a fixed wireless broadband system manufacturer of in-building fixed-broadband wireless- ccess products
Radyne Comstream, Inc. RangeStar Wireless Raytheon Wireless Solutions. Raze Technologies Inc	solutions over IP, Intranet, Internet & other packet networks offers the Wireless Local Loop (WLL) market a point-to-multipoint system with W-CDMA and IP technologies manufactures equipment used in the ground-based portion of satellite communication systems to receive & transmit data, video, audio and Internet over satellite communications links manufactures embedded antennas for the wireless communications markets Manufacturer of wireless access products manufactures a fixed wireless broadband system
Radyne Comstream, Inc. RangeStar Wireless Raytheon Wireless Solutions. Raze Technologies Inc. RC Networks, Inc. Red-M RedWave Networks.	solutions over IP, Intranet, Internet & other packet networks offers the Wireless Local Loop (WLL) market a point-to-multipoint system with W-CDMA and IP technologies manufactures equipment used in the ground-based portion of satellite communication systems to receive & transmit data, video, audio and Internet over satellite communications links manufactures embedded antennas for the wireless communications markets Manufacturer of wireless access products manufactures a fixed wireless broadband system manufacturer of in-building fixed-broadband wireless- ccess products enabling next generation mobile data & voice services in the workplace through the development of innovative product solutions manufactures wireless broadband system
Radyne Comstream, Inc. RangeStar Wireless Raytheon Wireless Solutions. Raze Technologies Inc. RC Networks, Inc Red-M	solutions over IP, Intranet, Internet & other packet networks offers the Wireless Local Loop (WLL) market a point-to-multipoint system with W-CDMA and IP technologies manufactures equipment used in the ground-based portion of satellite communication systems to receive & transmit data, video, audio and Internet over satellite communications links manufactures embedded antennas for the wireless communications markets Manufacturer of wireless access products manufacturer a fixed wireless broadband system manufacturer of in-building fixed-broadband wireless- ccess products enabling next generation mobile data & voice services in the workplace through the development of innovative product solutions manufactures wireless broadband system manufactures wireless broadband system
Radyne Comstream, Inc. RangeStar Wireless Raytheon Wireless Solutions. Raze Technologies Inc. RC Networks, Inc. Red-M RedWave Networks.	solutions over IP, Intranet, Internet & other packet networks offers the Wireless Local Loop (WLL) market a point-to-multipoint system with W-CDMA and IP technologies manufactures equipment used in the ground-based portion of satellite communication systems to receive & transmit data, video, audio and Internet over satellite communications links manufactures embedded antennas for the wireless communications markets Manufacturer of wireless access products manufactures a fixed wireless broadband system manufacturer of in-building fixed-broadband wireless- ccess products enabling next generation mobile data & voice services in the workplace through the development of innovative product solutions manufactures wireless broadband system

Repeater Technologies RF Micro Devices	Supplies infrastructure repeaters to cellular & personal communications service providers
RF Monolithics	Radio frequency integrated circuits & amplifiers, mixers and modulators/de modulators Resonators, filters & delay lines for low power high frequency wireless systems
RF Solutions	manufacturer of radio frequency integrated circuits, or RFICs, the wireless engines found in every wireless device
RFTNC Co., Ltd	manufactures wireless lan bridge / router, IP solutions for the Internet
RIM	manufacturer & marketer of innovative wireless solutions for the mobile communications market
ROHN Industries, Inc	manufacturer of Towers, Poles, Telecom Accessories, Obstruction Lighting & Reception Antenna Mounts
Runcom Technologies	manufacturer of broadband -wireless-access network equipment & subsystems
ScoreBoard, Inc	location-based technologies offer carriers ability to manage quality & capital efficiency within their wireless networks
Securicor Wireless Inc	spectrum-efficient wireless technology
Sentor Monitoring Systems Pty Lto	Communications Base Site Monitoring and Control Software and Hardware
<u>ShareWave</u>	broadband wireless LAN solutions based on the IEEE 802.11 standards
SiCOM	provides modem semiconductor solutions for fixed broadband wireless infrastructure & access applications
Siemens Information and Communication Networks	Wireless Networking Equipment
Sierra Wireless	cellular wireless data communications hardware & software
SignalSoft Corporation	software developer of Wireless Location Services(R), a product suite that enables location -based wireless services for information, billing, safety & tracking
Signal Technology Corporation	Develops RF radio sub -systems for fixed -broadband-wireless -access applications
Signatron Technology Corporation	products include advanced Over -the-Horizon microwave radio terminals
SIGPRO Wireless Inc.	Manufactures next generations system-on-chip (SOC) and software solutions for OEMs involved in the development of wireless mobility terminals & networks
<u>Silicon Wave</u>	Designs and markets high performance & radio frequency integrated circuits
Simplified	OpenWireless software supports end-to-end e-commerce transactions independent of most wireless protocols or hardware platforms
SIRF Technologies	Designs & markets high performance GPS wireless technology
<u>SkyCross</u>	wireless antenna based on patented meander line technology - for both the mobile & fixed wireless markets
SmartLink Development Network, Inc	manufacturer of a unique mobile radio infrastructure & software
SmarTrunk Systems, Inc	Manufactures wireless equipment
SMC Networks	provider of the EZ Connect(TM) family of 11Mbps wireless networking and USB connectivity & the Barricade(TM) family of broadband routers
SMTC Corporation	supports the needs of a diversified OEM customer base within the networking, fixed and wireless communications & computing markets
<u>SnapTrack</u>	wireless device location technology
Socket Communicatiuons	Sells connection products for Windows CE -based computers
Solectek Corporation	manufactures Ethernet wireless bridges & routers that enable LAN-to-LAN communications
SolidStreaming.	MPEG -4 software offers real-time streaming video, audio and text to future multimedia-enabled 2G & 3G wireless devices
Sonik Technologies	Manufactures wireless products for wireless modems, telemetry, paging, and radio control applications
Sorrento Networks	provider of metro and regional optical networking products for fixed -wireless, cable TV and fixed - line telecom-service providers & utilities
Southwest Microwave	products include microwave radios for telephony, local area networks & data communications
SpaceBridge	Focused on wireless networking silicon
SpectraLink Corporation	Manufactures NetLink(TM) phones - combines wireless LAN and Voice over IP
SpectraSite Communications, Inc.	providers of outsourced antennae site and network services to the wireless communications and broadcast industries
Spectrian	Manufactures highly linear radio frequency power amplifiers
Spectrum Signal Processing Inc. Spectrum Wireless	Manufactures Smart Antenna Development Platform
SPEEDCOM Wireless Corporation	turn -key wireless system to provide high - speed Internet and local-loop services dedicated to the development and acquisition of leading -edge wireless technologies
Spike Broadband Systems, Inc.	Manufacturer of broadband wireless access products
	manufactures microwave time division multiple access (TDMA) fixed wireless telephony
SR Telecom Inc	equipment
SSE Telecom, Inc.	provider of digital satellite communications products
Stanford Microdevices, Inc.	supplier of high -performance RF components & amplifiers for communications -equipment manufacturers

STM Wireless	provides VSAT networks for broadband internet access, rural telephony and mesh voice and data networks
Sunair Electronics, Inc	manufactures high frequency single sideband communications equipment utilized for long range voice & data communications in fixed station, airborne, mobile and marine para-military applications
SuperPass Company Inc	antenna manufacturer for wireless data communication: WLAN, PCS, GSM
<u>SWIFTcomm</u>	IP (Internet Protocol) -based wireless broadband solution from Mitsubishi Materials Corporation
Symbian	supplying WAP software for mobile Internet devices
Symbol Technologies	Wireless Networking Equipment
Synoptel	proprietary wireless technology - Customer Premise Equipment improves the delivery of voice over IP, on-demand video & high-speed Internet and data traffic
Tantivy Communications, Inc	CDMA RF equipment that is spectrally compatible with the IS-95 digital standard for PCS Internet access
TCI	offers broad-bandwidth antenna solutions for HF communications, high power short wave & MF broadcasting applications
Tektronix	RF Spectrum Analyzers & testing equipment
Telaxis Communications	Broadband wireless network equipment
Teledesign Systems Inc.	Manufacturer of wireless modems and radio modems
Telelase Communications Inc.	Markets wireless local loop equipment solutions
<u>Telemobile, Inc</u>	Manufacturer of Wireless Rural Loop (WRL) equipment
Telenetics Corporation	manufactures high quality wireless & landline remote monitoring products and systems that collect data from industrial devices
TelesciCOM	manufactures SKYGAIN [™] antenna-to-bit & SPACEGAIN [™] RF-to-bit, chipsets for both Fixed Broadband Wireless & Two-way Broadband Satellite access applications
Teletronics International, Inc	Manufactures wireless voice & data communication products including the WFL wireless telephone system
<u>Tellabs, Inc</u>	manufactures & services data, voice and video transport, switching/routing and network access systems for public telephone companies, alternate service providers, cellular & other wireless service providers, cable operators, government agencies & utilities
Tellus Technology Inc.	manufactures CDPD (cellular digital packet data modems) and other dedicated wireless terminal products
<u>Telular Corp</u>	manufactures fixed-wireless, TDMA & GSM products
<u>Telxon, Inc</u>	manufactures complete Wireless System Solutions
TEMEX TELECOM	wireless communications equipment
Terabeam	fixed -wireless-optics firm
Terayon Communication Systems, Inc	broadband access systems for existing telephone, copper wire infrastructures & wireless systems
TESSCO Technologies	provider of the services, products and solutions required to build, operate, maintain and use wireless voice, data, messaging, tracking & Internet systems
<u>TeVeo</u>	TeVeo's VIDiO(TM) Suite is software enabling high-resolution video over the Internet
Texas Instruments Incorporated	Manufacturer of the fastest, programmable digital signal processor (DSP) technology ever for next-generation advances in communications such as third-generation (3G) wireless - allows manufacturers to offer real-time, high-resolution images & video over wireless & broadband infrastructures
ThinAirApps, Inc.	wireless information access software providing the most open platform for extending information to any wireless device
Thomcast Communications.	Wireless Networking Equipment
ThruPoint Inc.	Wireless LAN Component Solution includes the following technologies: Frequency-hopping spread-spectrum (FHSS), Direct-sequence spread -spectrum (DSSS), 802.11, 802.11b and Wired Equivalent Privacy (WEP)
TIL-TEK Antennas Inc	manufacturer of high quality antenna products
Times Microwave Systems	manufacturer of high performance flexible and semi-rigid coaxial cable, connectors, and cable assemblies for RF transmission from HF through Microwave frequencies
TIW Systems	Manufacturer of a full line of telecommunications network systems & related RF, IF, and baseband equipment used in satellite communications
Toshiba America Information. Systems Inc.	suite of wireless LAN products and services for businesses: Wi-Fi (802.11b) & Bluetooth technologies
Transcept, Inc.	CDMA & TDMA RF distribution systems
TranSystem Inc	MMDS Microwave Communication Products
Trellis Photonics	Trellis' products switch individual wavelengths of light without leaving the optical domain enabling the migration of DWDM into the metropolitan area
Triton Network Systems	designs, produces & markets wireless equipment
TRW Inc	Manufacturer of "SpitFire" high-speed, high-capacity wireless access technology
	mobile Internet platform - software that enables end users to interact with relevant, actionable information that is dynamically correlated with their schedule, physical location & personal preferences

Isola	mobile Internet platform - software that enables end users to interact with relevant, actionable information that is dynamically correlated with their schedule, physical location & personal preferences
Tut Systems, Inc.	provider of multi-service broadband access systems and solutions for the multi-tenant market
UC Wireless	Manufacturer of broadband wireless solutions
Urban Data Solutions	2-D and 3-D spatial information management (SIM) platform models automates line-of-sight analysis enabling visualization of wireless networks
Unique Broadband Systems, Inc	Manufacturer of broadband wireless solutions
UTStarcom Incorporated	Manufacturer of WAP access products
Vari-L Company, Inc.	provider of advanced components for the wireless telecommunications industry
	products enable network service providers to connect their enterprise customers over broadband
Verilink Corporation	access services
Vexcel Corp	off-the-shelf precision 3D terrain and building data sets to aid planning of wireless networks
ViAir	highly scalable, integrated & customizable WAP mobile applications & management tools for wireless carriers, ISPs & ASPs
<u>ViaSat</u>	Manufacturer of satellite signal processing equipment for the government & commercial markets
ViewCast.com, Inc	enables video communication over the Internet & other networks through vertically integrated components, systems and turnkey solution products & services
Voice Mobility International, Inc	developer of the Unified Communications(TM) software suite which can be used through the Phone.com UP.Browser(R) microbrowser, is versatile and well-adapted for use in a WAP wireless environment
VTEL Corporation	manufactures, services & supports integrated, multi-media visual communication systems which operate over private & switched digital communication networks
VYYO	wireless communications equipment
<u>Wavecom</u>	digital wireless standard modules, known as WISMO modules
WaveLink	software platform for developing mission-critical wireless business applications that maximize mobile worker productivity
WaveRider Communications	fixed Wireless Internet Networking & data communications products
Wave Wireless Networking	markets to ISPs a complete equipment solution for broadband access to the multiple dwelling units (MDU), multiple tenant units (MTU), and hospitality markets
WavelP	manufactures point -to -multipoint, fixed-broadband-wireless-access systems
	manufactures Orthogonal Frequency Division Multiplexing (OFDM) modem technology & RF
<u>Wavesat T élécom inc</u>	microwave amplifiers used in the deployment of fixed-broadband-wireless networks
Wavtrace	broadband wireless access (BWA) systems
WebGear, Inc	Wireless Networking Equipment
WebGear, Inc Webraska	Wireless Networking Equipment worldwide provider of wireless navigation, spatial searching, mapping and traffic information
	Wireless Networking Equipment
Webraska Western Multiplex Corporation	Wireless Networking Equipment worldwide provider of wireless navigation, spatial searching, mapping and traffic information services and technologies for telecom operators & car manufacturers Manufactures wireless data communications products
Webraska Western Multiplex Corporation Westinghouse Wireless Solutions	Wireless Networking Equipment worldwide provider of wireless navigation, spatial searching, mapping and traffic information services and technologies for telecom operators & car manufacturers Manufactures wireless data communications products wireless communications
Webraska Western Multiplex Corporation	Wireless Networking Equipment worldwide provider of wireless navigation, spatial searching, mapping and traffic information services and technologies for telecom operators & car manufacturers Manufactures wireless data communications products wireless communications Wireless Networking Equipment
Webraska Western Multiplex Corporation Westinghouse Wireless Solutions	Wireless Networking Equipment worldwide provider of wireless navigation, spatial searching, mapping and traffic information services and technologies for telecom operators & car manufacturers Manufactures wireless data communications products wireless communications
Webraska Western Multiplex Corporation Westinghouse Wireless Solutions Whip Networks	Wireless Networking Equipment worldwide provider of wireless navigation, spatial searching, mapping and traffic information services and technologies for telecom operators & car manufacturers Manufactures wireless data communications products wireless communications Wireless Networking Equipment creates short-range wireless communications & Bluetooth(TM) networking technology including Ist Stand-Alone Bluetooth Access Points enabling local "hot spots" of high-speed wireless
